USE CASES

Real-time Case Study:

Inaccurate SKU master data was addressed by deploying vMeasure at receiving stations, integrated with the WMS. This optimized shipping costs and space utilization & completed master data of 13,000+ SKU's.

ROI:

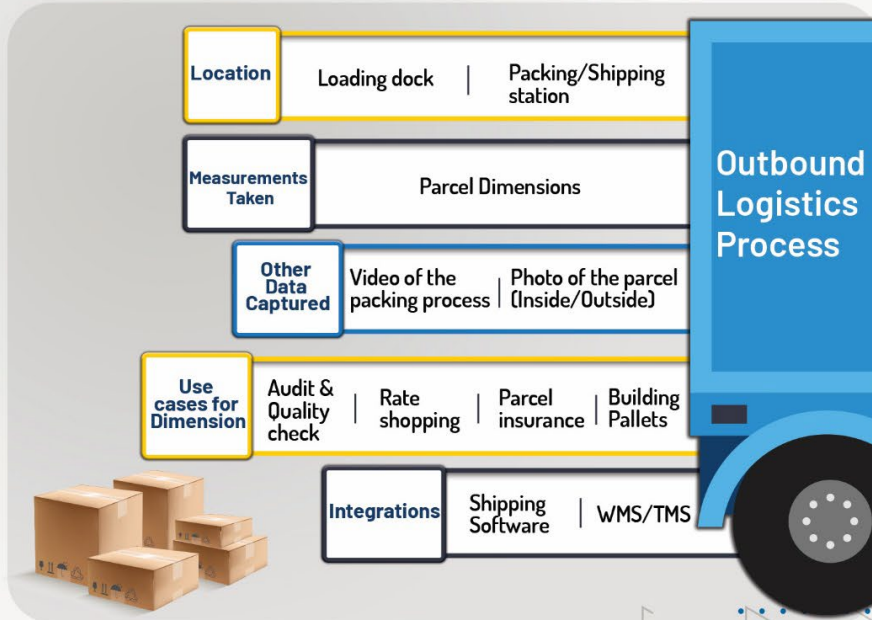

Improved SKU Master data health by 99%, reduced packaging waste by 17%.

Real-time Case Study:

Inaccurate shipping bills were corrected by deploying vMeasure at packing stations, integrated with DesktopShipper, optimizing shipping costs and order throughput.

ROI:

Shipping cost reduced by 17%

Trusted by

Testimonial

GRANT BURCHAM

Head of Operations, Warehouse Anywhere

"...Speeds up the ability to capture the data or verify it without having to use a tape measure and a weight scale..."

TYTUS WILSON

Director of Supplychain Analytics, IQPack

"...Allow our customers to access their dimensioning data and imagery to have accurate dimensional data for supply chain optimization..."

JOSHUA HOGETERP

President, Bargain Book stores

"...They are now indispensable components in our shipping process & have allowed us to predict shipping costs accurately..."

FREDDIE MENEZIES

National Operations Manager, Kargo Group of Companies

"...Improved service levels up to 30% and this has allowed our vehicles to be on road delivering rather than waiting in the loading bays..."

Dimensional Accuracy

ROI

Support

CHRIS LAZANAKIS

Managing Director, Dezel Business Solutions.

"...Low maintenance, mobility in the warehouse, custom API's for integration and ease of use makes it an essential piece of equipment..."

RUSHIL MOHAN

Co-Founder, Pidge

"... with vMeasure, we were be able to install the cloud-based solution literally under a day and under a far more achievable budget..."

PRAKASH PATHANIA

Senior Manager, Holisol

"...vMeasure provided excellent support throughout the product integration process, with readily available and effective after-sales assistance..."

SOMENDRA SINGH

Deputy Manager (Logistics), Jaquar

"...vMeasure's customer support was outstanding, offering quick resolutions and training for effective device use..."

NEW LAUNCH

Introducing vMeasure Pallet Dimensioner

Able to read pallets with black stretch

Dimensions in 2 seconds

Mounts Available: Floor, Wall, Roof

Reflective lights will not affect measurement

Measures up to 8 feet

Hardware Integrations: Floor Scales, Forklift, Pallet Trackers & In-line systems

About VisAI Labs

At VisAI Labs, we take the recent advancements in Vision and AI and are fashioning it towards bringing Vision Cognition to machines.

We accelerate the real-world adoption of edge AI Computer Vision applications by providing a practical approach, led by engineers and industry experts.

VisAI Labs was created to deliver a promise that CV has been making to the world for 25+ years.
